

## MimioBoard 78W / 87W touch board

Enhance classroom collaboration with an interactive touch board that's also a conventional dry erase board. Up to ten single-point touch users or five dual-touch and gestures users can work simultaneously at this easy-to-install board.

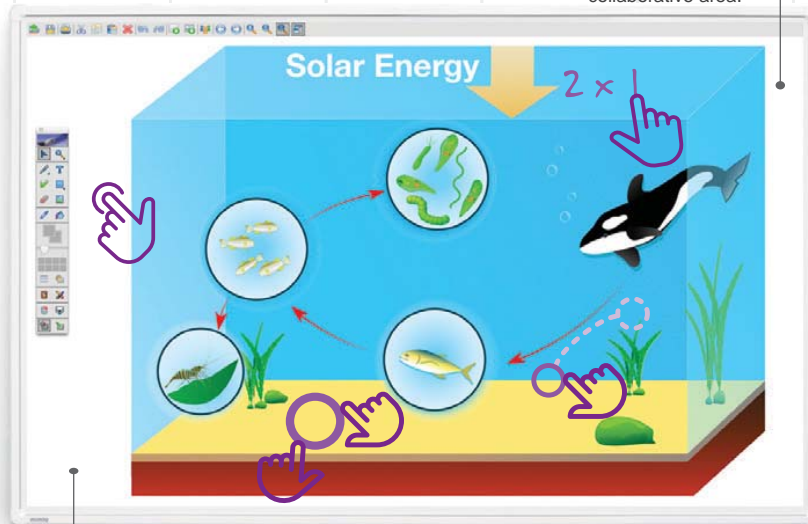

Enjoy touch technology designed for real classrooms with an interactive board that offers collaborative learning and an unprecedented touch experience. With Touch 360° interactivity, up to ten students can work together simultaneously at this easy-to-install interactive whiteboard. Their control and touch experience will be fast and precise no matter where they are working on the board.

- Part of a complete interactive solution that includes MimioStudio™ classroom software, which allows you to create lessons and collaborative activities, as well as perform formative assessment.
- Up to ten single-point users or five dual-touch and gestures users can work together interactively at the same time with the class, increasing student engagement and driving collaborative learning.
- Erasable surface allows teachers to use the classroom-rugged touch board for their normal whiteboard activities.
- The lightweight touch board typically installs in less than 10 minutes with included mounting brackets.
- Lessons come to life on this projection-optimized nano-coated surface.
