

touch board kit

## MimioFrame B78X / B87W / W87W / W78X / W78W

The MimioFrame touch board kit turns your conventional whiteboard into a touch board in. Using your existing classroom whiteboard, projector, and computer.

Create a touch board with ease using your conventional whiteboard. The MimioFrame allows the teacher and multiple students to work together with Touch 360° interactivity.

Students write and manipulate objects above, below, or parallel to one another with a smooth and consistent response—making collaborative learning at the front of the classroom a reality.

- Engage multiple users in collaborative lessons or activities with 10 simultaneous points or 5 dual-touch points.
- The frame installs directly onto your dry erase board using industrial strength tape—no drilling, no mess, and no losing valuable whiteboard space.
- Includes the dynamic MimioStudio™ classroom software MimioMobile™ app, which together enable collaboration and assessment at the front of the room or on almost any device. Comes with three free MimioMobile connections.
- The lightweight kit design allows for r easy installation and 75% less shipping costs than a standard touch board.

**LEVERAGE YOUR CURRENT RESOURCES**

Use your existing projector, classroom computer, and whiteboard with the MimioFrame to create a collaborative area.

**MULTIPLE STUDENTS COLLABORATING**

With 10 touch points, you'll enjoy true collaborative learning with 4, 6, or even 10 students working together

- Lightweight frame easily attaches to your current whiteboard using the included industrial strength double-sided tape
- Delivered in a small box weighing less than 9 lb
- Includes MimioStudio lesson creation, collaboration, and assessment software

## MimioStudio software—so easy to use and engaging, your teachers will use it every day.

The MimioFrame touch board kit includes the dynamic MimioStudio classroom software. It connects the Boxlight products, so using other tools—from the document camera to the pen tablet—is quick and easy. MimioStudio software allows educators to create interactive lessons and collaborative activities, as well as perform real-time formative assessment. The software also opens other IWB activities, enabling educators to use the interactive content they already have. **Take learning even further with our MimioMobile app, which brings group learning and collaboration to almost any device.**
